Datos adicionales:

‘End-of-terrace village house in a quaint hamlet.
Large property comprised of one part with two floors and another with rooms and corral. Original features are present, such as two fireplaces.
Would make a great project to convert into a large house or a bed and breakfast.
The property needs quite a lot of renovation, but building materials are relatively inexpensive in the area.
The hamlet and the surrounding countryside is very quiet and the nearby town of Oria has most amenities.’
